

COSHH RISK ASSESSMENT

Jangro Professional Stainless Steel Cleaner (750ml)

Product Code: BB006-75

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged ready mixed in 6 x 750ml polythene flasks with trigger spray. Delivered in single containers if required.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, well ventilated, dry storage area. Product must be kept stored in its original container.	Minimal risk of spillage if triggers are firmly in place. Triggers are not child proof.	Keep containers in secure storage areas. Restrict access to storage areas to authorised personnel. The product is not flammable.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
Product is dispensed in a trigger spray bottle. Product can be applied directly onto the surface or sprayed onto a cloth before wiping.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of inhalation.	Handle the containers with care. Wear Personal Protective Equipment. Ensure that the container is returned to the store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: • Protective Gloves Use product with care. Ensure that operatives are aware of location of First Aid facilities and personnel.
DISPOSAL			
Empty containers can be disposed of as normal waste. Residual stocks must be disposed of as hazardous waste and disposed of accordingly. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Small risk of inhalation and ingestion. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives always wear Personal Protective Equipment during disposal. Ensure that all operatives are aware of the First Aid equipment.
